

# GET ME TO THE CHURCH...

...IN STYLE

## weddingbugs

**Your wedding day is one of the most important days of your life, as such it is vital that every part of the wedding preparation is just right and has the desired effect to make each moment special. After all it is going to be remembered for a very long time.**

We have heard of some great, novel ways to get to the church but Weddingbugs really caught our attention. In the spirit of Herbie and the 'Love Bug' Lee Clement, founder of Weddingbugs, explained that

she has always had a love of Beetles and when the new shape came out she knew it was time to get one. It was Lee's mum who put the idea in her head that the ivory coloured convertible would be great for a wedding car. From this Lee discovered a company hiring vintage and stretched Beetles and began working with them.

This alliance proved successful and Lee was offered the new Beetle division, a successful enterprise has since grown with Lee now able to offer new, old and stretched Beetles.

While enough people are doing the big, stretched limousines, the little VW bug is a great understatement, it typifies a couple who are comfortable with each other and share a great sense of humour. It is a fantastic start to a new life together and one that will definitely be remembered for a very long time.

Lee explained that Weddingbugs has even caught the imagination of the TV with one of their cars, Honey, appearing in East Enders, pictured opposite, with Barbara Windsor being escorted out of the car.

Weddingbugs is auctioning a chauffeur driven ride in two Beetle Convertibles as a prize at a Masquerade Ball fundraising event in aid of Cancer Research UK. The event will be held at Colwick Hall Nottingham and the cars will chauffeur the two lucky winners to an open air concert complete with a lavish champagne picnic to make the day as enjoyable and as special for the winners as possible.

We like Weddingbugs a lot, it is a great way to make a statement on your wedding day for those with a great sense of fun and individualism. If you are this kind of couple and want more information you can visit their website at
